Subject: This is shameful

Why would you take away our right of choice when it comes to getting from one place to another. I consider getting rides from Uber like getting a ride from a friend or family member. I travel 48 weeks a year and always use Uber when Im in market. I feel "WAY" more safer in a Uber then a taxi, when I request an Uber there is a digital footprint that has been created and my family knows where I am, when I jump in a taxi off the street I could be abducted or robbed and no one would ever know where I am.

The standard that Uber holds itself to on vehicle maintenance is far superior then any "TAXI I HAVE EVER BEEN IN", most of the taxis are unsafe and should not be on the streets, no breaks, no shocks, smell like dirty feet and the filth is horrendous. You should be ashamed of yourselves for taking away the American spirit that made this country so great. My grandparents were immigrants and when they started there business no one stopped them from pursuing the American Dream!!

Subject: Uber

To whom it may concern,

I am a disabled veteran of the USAF. I have been using Uber services for over three years in cities like Atlanta, Raleigh, and NY. I have also been taking regular Taxi cabs for many years. I choose to write this message to let the PSC commission read and understand fully what a crime against citizens of the state of South Carolina would be, to eliminate Uber as a ride sharing service for the public. Uber cars are new, inspected, cannot be older than 2006 models, drivers are screened and they are kind, do not smoke, and have free water for people who choose to ride share with them. Now, not only their services outclass overpriced Taxi rides, they do not even accept tips! I had a Yellow cab driver pick me up with a Pitt Bull sitting on the passenger side, the ride smelled like smoke and I got killed with charges and tips! Also, I had to hear the rude driver cursing and yelling political propaganda the whole ride, they were late, they are hard to call and obtain rides from. With Uber I open my app, they know where I am, they come pick me up, I know the face of the person who comes to get me and a friendly courtesy call beforehand, the charges are low, and I am treated like a king!

Now tell me, why are you supporting price gauging services that take advantage of people like Taxi companies? If they hate Uber, why don't they step up their game and get up to par with them and compete? Monopolies are not good for this great country I served, this is the way to go, if you eliminate Uber people like me, veterans who served this nation will rally and let the media know the state of SC prefers helping price gauging, uneducated, dirty and rude services take advantage of us instead than allowing a great service like Uber setting the bar and creating a standard to which Taxi services should rise to compete. This is not a reflection of what made this country great, this country became what it is thanks to businesses like Uber.

I know hundreds of people who used to have a few drinks and drive, now they all take Uber because it is cheap, clean, friendly, available, safe, and easy for us all to use. You take Uber out of service and you will also be responsible for putting drunk drivers back on the road, be very careful of your actions.

Respectfully,

A proud Veteran of the USAF.

Subject: Uber cease and desist

Uber is the best thing to happen to transportation in the state. We have little to no cab support or public transportation. Uber fills a necessary role in our community.

Respectfully,
Mat Stribling

Allow college students re affordable transportation. Uber is a much better option than driving home drunk.
